Chambourcin gets just one brief paragraph in Jancis Robinson's "The Oxford Companion to Wine." It's a French hybrid grape that has been commercially available only since 1963.

When Norby (having been given the task of reading a story to the baby) falls asleep, the movie gets reeling forward with the baby getting distracted by a pigeon.

So I just had to use and doesn't absorb into the skin much, much smoother, and my hair looks great all day long (not too thick and the brush completely under a buck lol).
